

Broomfield Days Non-Food Vendors 100% Zero Waste Participation Agreement

Dear Vendor:

Thank you for your interest in participating at Broomfield Days! We are proud to announce that this event will be a **Zero Waste event**.

The goal at a Zero Waste event is to plan ahead and **distribute only materials that are recyclable or compostable** (not any materials that will be landfilled). "Zero Waste Stations" consisting of a recycling bin and compost bin will be available to participants at numerous locations throughout the park. As a vendor handing out products at this event, **you play a vital part** in the success of our Zero Waste initiative.

Vendors attending Broomfield Days are required to hand out only recyclable, compostable or reusable materials to the public. We have included local recycling and composting guidelines with this contract so you know which types of materials will be acceptable to distribute.

Remember, if an item is not recyclable locally, we cannot recycle it, even if your supplier has told you it can be recycled. If you have any questions as to whether your items are considered recyclable or compostable, please call Carolyn Johnson at 303-460-6923 or Tony Spease at 303-460-6932. We will answer your questions and help you understand your important role in this Zero Waste event. **Please note that you will be asked to remove any non-recyclable or non-compostable items from your booth for the duration of the event. You will only be allowed to distribute recyclable or compostable products.**

Your signature on the vendor application acknowledges that you will abide by all Zero Waste guidelines and requirements. We look forward to working with you to make this a successful Zero Waste event.

Our Zero Waste goal is simple to attain if you plan ahead of time the kinds of materials you will be providing to the public at the event. Here are some ideas that can help you achieve this goal:

- Use the least amount of packaging possible or remove the packaging before distributing the item.
- Use compostable 'goodie' bags rather than plastic bags.
- Use post-consumer (preferred) or recycled content for flyers, programs and handouts. Choose to print on paper with the highest recycled content you can find.
- **Do not use "neon" fluorescent or dark-colored papers.** These cannot be recycled.
- **Do not use kraft or goldenrod (orange-brownish envelopes)**
- Candy wrappers, energy bars, chip bags and packaging from pre-packaged food are trash items.

For Local Sources for *Recycled Paper*, contact local office paper supply stores

For Local sources for *Compostable Bags*, contact Whole Foods, Ace Hardware, King Soopers or Western Disposal

Unfortunately, we can not compost or recycle CANDY WRAPPERS of any kind. Please consider the health of our participants and the environment and avoid including individually wrapped candy at your booth or in the parade.
