

**Recommended Reads**

With NoveList Plus, you can find book suggestions based on your reading preferences.

Follow the directions listed inside this brochure to go to the homepage of NoveList Plus.

Then use age rankings and genre categories to find books you'd enjoy reading.

Once the results page shows, mouse over any book cover that interests you to see a brief summary of that book. If you like the brief summary, click on that title and you can read reviews from professional journals.

Then go to <http://broomfieldlibrary.org> and use our online catalog to see it is available here at the library.

**Reading Resources**

NoveList Plus offers even more resources right on the homepage. Use any of the links listed in the right hand purple box to find special features and helpful reading resources.

## Search By Plot!

Are you looking for a book you read a long time ago, but you can't remember the author or the title? You can use the "Search for All" in the NoveList Plus basic search to enter a vague plotline and it can help you find that book.

For example, you could type "art foster care" to locate *Pictures of Hollis Woods* by Patricia Reilly Giff or "pirates attack airship" to find *Airborn* by Kenneth Oppel.

## BASIC SEARCH

- Use NoveList Plus to locate reading levels, reviews, and much more for a specific book.
- Go to <http://broomfieldlibrary.org> and click Online Resources/ Databases in the left hand navigation bar.
- Next click on the letter "N" in the alphabetical list and select NoveList Plus. To use this database from home, you will need to enter your Mamie Doud Eisenhower Public Library card. Start with the "D" and enter the rest of the card numbers without any spaces.
- Perform a basic search to locate a book. You can search by "All", "Author", "Title", and "Series".

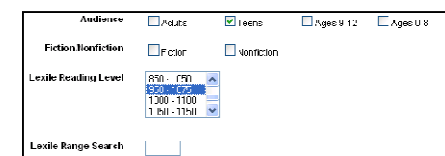

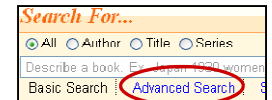

## MINIMUM/MAXIMUM GRADES

- Once you are on the page that displays information for that book, you can locate the suggested grade levels.

## LEXILE RATINGS

- The Lexile Ratings measure how well a student can read and comprehend and is listed directly under the minimum and maximum grade levels. Not all the books in NoveList Plus have the corresponding lexile ranking listed.
- To search within a lexile level, click on Advanced Search on the homepage of NoveList Plus.
- Once on the Advanced Search page, just scroll down to the "Limit your results" section.
- Select the audience and a lexile reading level range. You can also limit the search by selecting fiction or non-fiction or by putting in a lexile range search number.

- Then scroll to the bottom and click the search button.

## Series Order

Need to find the next book in a series? Just go to NoveList Plus and click on the "Series" link in the top left hand corner of the homepage to access their series lists.
