

2008 Sculpture Project

Sky Totem

Warren Cullar

Xeriscape Demonstration Garden
Broomfield City and County Building

Sky Totem is a bronze sculpture that is given different patinas to make it look like stacked stones. The shapes echo the stones pushing out of the ground in the Xeriscape Garden.

2008 Sculpture Project Leaf and Feather

Broomfield City and County Building
One Descombes Dr, Broomfield CO

AirWorks Studio
George Peters and
Melanie Walker

Commissioned by the Broomfield Public Art Committee, Leaf and Feather is a beautiful addition to the Broomfield City and County Building. The piece activates the high ceilings of the lobby with gentle movement caused by the ambient air currents of the building.
